OUTLINE.

Admiral Sigsbee's fleet of battleships arrived in Hampton Roads early yesterday morning, bringing from France the remains of John Paul Jones, founder of the American navy and Revolutionary hero; cannon boomed from the great warships of two squadrons and the naval scene was one of stately grandeur; the remains will be sent to Annapolis for imposing interment——Sixty dead is the record on account of the awful explosion at San Diego, Cal., Friday morning; fifty were injured of whom 24 were seriously hurt; it is believed that a dozen more will die and 17 are missing; the explosion was the result of negligence.——The suspicious cases of fever at New Orleans have been diagnosed as yellow-fever, it broke out among Italian laborers, and was brought from Belize on fruit vessels; several cities have quarantined against New Orleans, but the authorities there hope soon to crush out the dread contageon.——At Portsmouth, N. H., yesterday a ledge of three acres obstructing the harbor was blown up by 45 tons of dynamite, the largest charge of explosive ever used in the world; huge waves were rolled into a neighboring town but no damage was done; in a collision between electric cars returning from the scene of the explosion, 15 people were injured——While Judge Alton B. Parker and grandson were bathing in the Hudson river at Esopus yesterday, the boy would have been drowned had he not been rescued by Edward Fritz——The Japanese are closing in on the Russian army with 550,000 men, while the navy is doing service on the Korean coast.——New York market: Money on call nominal, no loans, time loans easy; cotton, spot quiet 11c.; flour unsettled by the wheat break, closing dull; wheat steady, No. 2 red 99 1-8 F. O. B. afloat; corn steady, no 2, 63 3-4; oats, mixed 35 1-2 to 36 1-2; turpentine dull 61 to 61 1-2; rosin steady, strained common to good 3.60.

If you want to see a girl get hot let her rival cast her in the shade.

Every man might as well make up his mind to se his finish sooner or later.

"Shouldn't a Senator be allowed to live his life over again?" asks a New York paper. Well, not at the risk of the people.

It is amusingly strange what opinions politicians form and express of each other when they are candidates for the same office.

There was a "hot time in the old town" of Florence Thursday, and Friday when the mercury "clomb" to the 100 degree mark.

It is a strange thing that when government office-holders get rich at it they don't quit running the risk of getting into the penitentiary.

"Women should get men's wages" says a female suffrage champion. Some men insist that they get all now except their cigar money.

Quoth the New Orleans Picayune: "If the average pretty girl would preach instead of practicing, no doubt Sunday congregations would be more encouraging." Thats no joke.

"Does a woman know her rights?" asks a magazine writer. The way in which a woman asserts her rights shows that she does. Even a six weeks old girl baby will kick till it gets what it wants.

The fact that enough people can be found to furnish Elijah III. Dowie with money to pay off about a half million dollars of debts, justifies the belief that Grim's Fairy Tales can be palmed off on some folks as literally true.

Says the Columbia Record: "Complaint is made that a real first-class man cannot be gotten for the position of statistician of the Agricultural Department at the present salary, which is $3,500." Well, that really does look all out of proportion to the known opportunities of the statistician.

TRAGIC DEATH OF A CHILD

Infant Son of Policeman and Mrs. H. P. Merritt Drowned at Home of Parents Yesterday.

A distressing accident occurred yesterday at the home of Policeman H. P. Merritt, No. 1117 North Third street. Hugh P., the little 18-months old son of Mr. and Mrs. Merritt, a namesake of its father, was drowned under peculiarly sad circumstances. Officer Merritt had been on duty the night before and was at home asleep. The mother was busy about her household duties after breakfast and about 10:30 o'clock the child was permitted to go in the back yard to play. Although busily engaged in the house, the mother was watchful of the little fellow and when he had been gone for a few minutes she went to the back door and called to him. Receiving no reply and seeing nothing of the child, she went to see if the baby had strayed out of the yard, but was horrified a few minutes later to find the little one drowned in a half barrel of water kept in the rear of the lot by Mr. Jere Hand, from which to water his stock. The child probably climbed up on the edge of the half barrel, lost his balance and fell headforemost into the water. The father was hastily summoned, and the little one was taken from the water, but it was too late. Dr. C. D. Bell, Mr. Merritt and others worked faithfully to save the life of the boy, but it was all to no avail.

The mother of the child is prostrated with grief and the father is deeply bereaved at the untimely loss of their only child and have the sincerest sympathy of friends in their sorrow. The remains of the child have been prepared for burial and will be taken on Capt. Ellis Sherman's boat to Still Bluff, Pender county, at 6 o'clock this morning for interment in the family burying ground. Policeman Merritt is one of the most popular men on the force and many of his fellow officers called at the saddened home yesterday to extend their sympathy.

LOCAL DOTS.

—Other local on fourth page.

—Gaylord's ad reached the office too late for change last night. It will appear Tuesday morning. Look for it.

—Mr. R. Rheinstein, a travelling man from New York, won the $5 prize offered by the Consolidated Company at Lumina bowling alleys on the beach last night. The Star was unable to learn the score.

—Kate Fisher and Fannie Williams, alias "Hoss Face Fanny," were charged in the Mayor's court, yesterday with an affray. The Fisher woman went to the workhouse for 30 days, but "Hoss Face Fanny" was found not guilty and discharged.

—Geo. Bell, colored, charged with maintaining a nuisance—an unsanitary hog pen in the northern section of the city—was before the Mayor yesterday on complaint of Simon Richardson, a neighbor. Bell was taxed with the cost and required to abate the nuisance in so many hours.

—For the convenience of those in encampment who would like to take the trip, the steamer Wilmington will make a run down the river and out to sea Wednesday, July 26th, returning in time to make the usual 5:15 and 8 P. M. trips for the mid-week dance. Fare for the round trip only 50c.

—The machinery of Justice Bornemann's court is complex. Yesterday he had applications for the recovery of property under mortgage. Claim and delivery was not necessary; the "judge" went after the "goods" and pretty soon a mule, cart and a graphophone were restored to the mortgagees.

—Constable Savage went up to Rocky Mount yesterday to bring back with him the young man, W. E. Parneel, arrested there on a warrant from Wilmington Friday afternoon, charging him with embezzlement of funds collected for Parker & Sneed by whom he was fomerly employed. Constable Savage will return with the prisoner to-day and the preliminary trial will probably take place to-morrow.

—The banquet in honor of Governor Glenn and the military at the Seashore Hotel to-morrow night promises to be a brilliant affair. Covers will be laid for about 150 and the list of guests will include the leading business men of the city. All those who have subscribed for tickets are requested to call at the Chamber of Commerce to-morrow morning and receive them as admission will be by card only. The cards will bear the name of the holder and are not transferable.

GOVERNOR'S REVIEW

Commander-in-Chief Visited State Troops in Camp Glenn Yesterday Afternoon

PLEASED WITH THE SOLDIERS

Third Day of Encampment Life at Summer Rest—Target Practice Yesterday — Testimonial to Col. Bragaw.

The event at the encampment yesterday was the review of troops by Hon. R. B. Glenn, commander-in-chief. A great crowd from Wilmington and the beach were present to witness the interesting sight. A large number of ladies were among the number. The review took place at 6 o'clock in the evening.

Gov. Glenn and his personal staff were met at Wrightsville by a detail of two companies headed by the Third Regiment band, under command of Lieut. Col. James. The march was direct to the camp where Governor Glenn and his staff were welcomed by General Armfield. The review then took place immediately. The troops made a fine showing although the parade ground is rather small. The Governor expressed great satisfaction at the way the men acquitted themselves.

The camp yesterday presented a quiet appearance and the men are getting down to hard work. The drills are being conducted regularly and the review yesterday afternoon demonstarted that they have made fine progress.

The guard mount yesterday was especially fine in their manoeuvres.

Target Practice.

The Third Battalion of the Third Regiment was in target practice yesterday morning. The battalion consisted of Co. G, Reidsville; Co. L, Greensboro; Co. J, Burlington, and Co. M, Sanford. The highest score for Co. G, was made by Private Gwinn, 19; the highest for Co. L, by Smith, 15; for Co. J, Phillips, 20; for Co. M, Wicker, 22.

The Sick List.

M. F. Fuller, Co. F, Third Regiment and W. T. Johnson, Co. C, both of Third Regiment were placed in the hospital yesterday. D. E. Bowdy, Co. E, Second Regiment, and R. G. Ray, Co. G, Third Regiment, were discharged. None are very sick, except Private Freeman who has fever.

Officers of the Day.

Col. C. L. McGhee was field officer of the day. Second Regiment detail: Officer of the day, Capt. Burns, Co. M; officer of the guard, Lieut. Wynne, Co. G; junior officer of the guard, Lieut. Orrell, Co. C. Third Regiment detail: Officer of the day, Capt. C. Brown Coxe, Co. I, Burlington; officer of the guard, Lieut. G. W. Burton, Co. G, Reidsville; junior officer of the day, Lieut. Brown, Co. F, Franklinton.

Company C, Wilmington, was detailed for provost guard along the railway and beach.

The detail at brigade hospital yesterday were: Officer of the day, Maj. E. H. Brooks, Sergeants Walker and Patrick; Ward Masters, W. A. Roscoe, C. D. Bizzell; Orderlies, Jas. Shelton and R. M. Pugh; Outside Police, W. M. Floyd and F. W. Royall.

In the mornings there are battalion drills in extended order and practice in forming advance and rear guards for battalions. The afternoon drills are battalion and regimental close order drill.

Some Camp Notes.

Co. D, Third Regiment, of Louisburg, is the newest organization in the regiments having been organized only about a month. It is making a fine showing. The personnel of the company is splendid. The men are large and bid fair to make good strong soldiers. The officers are Capt. J. B. Thomas; Thos. Person, first lieutenant; W. W. Boddie, second lieutenant. This company took the place of company D, of Durham, disbanded.

Lieutenants Howell and Spears, of Raleigh, are spending most of their time in camp reading letters from their wives. In this connection Capt. Moody, Co. B, Raleigh, says he is almost persuaded to get married.

The sanitary arrangement of the camp is splendid. The camp is being kept clean and in fine shape in every respect.

The Third Regiment Band is receiving praise on every hand for their soldiery bearing and the fine music they are rendering. This band has only been organized for about 30 days, but it bids fair to be the best band in the State Guard. It contains many fine musicians. Drum Major Durham commands the band with grace and dignity.

General Macon's headquarters was a busy place yesterday. The captains turned in their payrolls.

Maj. J. J. Bernard, of Raleigh, is a very much distressed officer. His trunk has not urned up yet, and all his gaudy togs are in it.

Most of the time the Consolidated Company are operating a triple car service to meet the heavy traffic between Wilmington and the beach. The passengers are being handled in fine shape.

One thousand and four hundred pounds of fresh beef was issued yesterday to the men and delicious soup, fine steaks and roast were the order of the day, much to the delight of the boys. The meat came direct from the refrigerator car and was in fine condition.

Maj. Davidson is instructor in drill for the Third Regiment and Maj. R. P. Hackney is instructing the guard mount for the Second. Under their instruction the men are making fine progress.

Co. B, of Raleigh, Capt. W. F. Moody, is making a fine showing. It is perhaps the best drilled company in camp. Capt. Moody is a fine officer, and is extremely popular with the men. In honor of State Treasurer Lacy, the company street has been named "Lacy Avenue." The men are in good shape and good spirits, and will share in the honors of the encampment.

A target match is being arranged between the officers of the Governor's personal staff and the officers of the brigade staff, the winners to challenge the line and field officers. Generals Armfield and Macon have been debarred from this contest. Governor Glenn will be in the shoot.

Majs. P. M. Albright and J. J. Bernard, of the Third Regiment, are among the handsomest of the officers, and it is a handsome lot as a whole.

Great preparations are being made for the dinner at the Tarrymoore Hotel to-morrow to be given to Gov. Glenn, his personal staff and the Brigade officers. The hotel is crowded with guests. Ex-Mayor Wm. E. Springer and other prominent Wilmington men have been invited as guests by Mr. Moore, proprietor.

Maj. Ivey Foreman, assistant quartermaster general, of Raleigh, is doing efficient work at the camp.

Friday evening just after dress parade the commissioned officers of the Second Regiment, accompanied by the regimental band, went around to headquarters and sprang a pleasant little surprise on Col. H. Churchill Bragaw, commanding the regiment. Through Capt. Wm. F. Robertson, of Co. C, Wilmington Light Infantry, they presented their genial commander a handsome sword and gilt belt as a mark of their esteem and appreciation. Engraved on the sword were the words: "H. Churchill Bragaw, Colonel, Second Regiment, North Carolina National Guard, 1905." Capt. Robertson was very graceful in the presentation and Col. Bragaw was none the less so in his happy response.

Col. Walker Taylor and Dr. J. D. Nutt paid the boys in Company C a visit yesterday and were gladly received.

R. L. Meares, of Co. C, is orderly at regimental headquarters and Jas. F. Gause, Jr., is regimental clerk. Lieut. Thos. R. Orrell was junior officer of the guard yesterday.

Governor Glenn and members of his staff came over on a special car for the review yesterday evening and were met with carriages at the depot. In the Governor's party were Adjutant General Robertson, Mr. W. B. Cooper, of the citizens' reception committee; Col. Wescott Roberson; Col. F. G. James, Col. Chas. E. Johnson, Col. J. L. Ludlow; Col. Peterson, Maj. Massenberg, Lieut. Col. W. E. Coxe, wife and Miss Robertson. The escort from the station was by the Edenton and Oxford companies and Third Regiment Band, all under command of Lieut. Colonel James and Lieut. Wiggins. Arriving at headquarters, the party was received by General Armfield and General Macon. The review immediately folowed, the crowd which witnessed it being estimated at fully 2,500.

Religious services will be conducted at regimental headquarters this morning by Chaplain Harding, of the Second Regiment, and Rev. A. McCullen, of Wilmington, chaplain of the Third Regiment.

MR. ADAM HERGENROTHER.

Highly Respected German Resident Passed Away Yesterday.

Mr. Adam Hergenrother, one of Wilmington's oldest and most highly respected German residents, passed away yesterday morning at 9:30 o'clock at his home No. 216 South Fifth street, after a lingering illness with Bright's disease. While his death was not entirely unexpected, the news of it came with sincere regret to many of the older residents of the city who knew him well and favorably.

Mr. Hergenrother was born in Bavaria, Germany, and was 63 years and five months of age. He was a bookbinder by trade, having served his apprentice in the old country. For several years he was employed by the Messenger and other printing establishments in this city and later was employed in the A. C. L. shops in Wilmington. He was quiet and unostentatious in his life and enjoyed the respect and esteem of all with whom he came in contact. He had been an invalid for some months prior to his death and bore his suffering with resignation and fortitude. He was a devout member of the Catholic church and the funeral will be conducted at 10.30 o'clock this morning from St. Thomas' Pro-Cathedral.

Mr. Hergenrother is survived by his wife and eight children as follows: Mrs. W. B. Schuler, of Wilmington; Mrs. H. Huffman, of Baltimore, Md.; Misses Katie, Mary and Lizzie Hergenrother, of Wilmington; Mr. J. Hergenrother, of Germany; Mr. Albert Hergenrother, of Binghampton, N. Y., and Mr. A. A. Hergenrother, of the family have the sincerest sympathy of many friends in their loss.

A RESIDENCE BURGLARIZED.

Home of Mrs. Henrietta Shepard Entered Yesterday Afternoon.

The residence of Mrs. Henrietta Shepard, No. 208 South Fourth street, was entered by burglars late yesterday afternoon while members of the family were away from home. A fine pistol belonging to Mr. B. O. Stone and a quantity of silverware, consisting of a set of heavy spoons, knives and forks and other valuables of the like were stolen.

Mrs. Shepard and little niece are visiting at Scott's Hill and Mr. and Mrs. B. O. Stone are keeping house while they are away. Yesterday afternoon Mr. and Mrs. Stone and others in the house went away for a short carriage drive, closing up the house. When they returned they found a panel had been taken out of a blind opening on the back porch and the back door was left open, evidently as the burglar passed out. Other valuables may have been stolen but thus far only the articles mentioned have been missed. Mr. Stone offers a cash reward of $50 for the recovery of the property or for the capture and evidence sufficient to convict the burglar.

ON LOCAL DIAMONDS

Fort Caswell Routed in Strenuous Ball Game at Hilton Park Yesterday

WAS A TEN INNING CONTEST

Score Five to Four—Results in Junior and Juvenile Leagues at Seaside Park and Seventeenth and Market Streets.

The crack baseball team from the army post at Fort Caswell journeyed out to Hilton Park yesterday afternoon expecting to find a cinch. It took ten innings of reasonably fast and snappy ball for the Atlantic Coast Line team, of Wilmington, which they engaged, to convince them to the contrary. The score was five to four. The finish was garrisonian. With the score tied at the end of the ninth inning, the A. C. L. went in for the first half of the tenth and put the winning run home on a clean single to centre by Dalley with two men on the bases. The soldier boys took their half of the tenth, vainly praying for a run to tie the score or two to win the game. The efficacy of their prayers was all but proven and Manager Morell paced the first base line uneasily. "Red" Wilson, who pitched phenomenally good ball all the way through, was the stumbling block. The soldiers got a man to third with two heavy batters up and only one man down. Wilson settled down to pull himself out of the hole and he did it with neatness and dispatch. While the soldier man on third base stretched his legs and his neck toward the home plate at every opportunity, "Red" kept his nerve with him and retired the batters by the atmosphere and pop-fly routes in short order.

Louis Moore behind the bat and Wilson at the firing end of the battery featured the game for the locals. The battery for Caswell was also good and received excellent support from as clever and as well behaved lot of ball players as have visited the local diamond in several seasons. Mitchell in centre-field made a sensational catch during the game while Cross, Worden and McCumber figured in a pretty double play that elicited applause from the grand stand. The official score credits Wilson with six strike outs and Oberly, for Caswell, with five. The Caswell team got only four hits off Wilson while the visiting artist was touched up for only five. The game was witnessed by 200 spectators, about evenly divided in sympathy between the two teams. The teams lined up as follows:

Caswell.		A. C. L.
Oberly	p.	Wilson.
Sublett	c.	Moore.
McCumber	1b	McIntire.
Barbee	2b.	Green.
Cross	3b.	Tedder.
Worden	s. s.	Wescott.
Mitchell	c. f.	Matthews.
Myers	r. f.	Dalley.
Grimes	l. f.	Litgen.

Score By Innings.

A. C. L. ....0 0 1 1 1 0 0 1 0 1—5 5 5
Coswell ....3 0 0 0 1 0 0 0 0 0—4 4 3

Batteries: Oberly and Sublett; Wilson and Moore. Time, 2 hours.

Many of the fanatics who stayed at home or spent the half holiday elsewhere have only themselves to blame for missing a really fine game. The attendance should have been double what it was. The A. C. L. team is a good one and lovers of the sport will be delighted to know that an effort will be made to have several other games here before the season is over. The team will be strengthened and challenges will be sent to several crack teams in this section.

The Junior League.

Teams in the Junior City League yesterday afternon split even. The Y. M. C. A. lost the first game to the [illegible] Street Giants at Seaside Park by a score of 8 to 6 and won the second from the Giants by a score of 6 to 5. The all-round fielding of the Giants was a feature. Seifert and Gerken composed the battery for the Giants and Houston and Duls for the Y. M. C. A.

At Seventeenth and Market street diamond the Monarchs won the first game from the S. S. R.'s by a score of 10 to 9 and the S. S. R.'s won the second game from the Monarchs to the tune of 11 to 4. Poisson and McKoy were the batteries for the Monarchs and Sallings and Bulluck and Sallings and Moore for the opposing nine.

The Cape Fear League.

In the Cape Fear League the Tar Heels won both games from the Chesnut Street Sluggers by scores of 14 to 3 and 4 to 0 while the Hornets and Stars split even on the other doubleheader. The Hornets won the first game by a score of 9 to 5 and the Stars closed the door upon the heels of their adversaries in the second by a score of 9 to 0.

Russian Laborer Drowned.

A Russian laborer employed by Mesrs. Hugh MacRae & Co., on some extensive drainage operations near Castle Haynes, was drowned in Northeast river, opposite the Fore & Foster mill there, late Friday afternoon. The Russian had gone home sick but later went out with a Norwegian sailor in a canoe to fish in the river. While shifting about in the canoe it was capsized and the men went overboard. The Norwegian clung to the boat and was saved. The Russian went down and was at once drowned. His body had not been recovered up to last night.

Music at Carolina Beach.

The Delgado Cornet Band will give a concert this afternoon at Carolina Beach and the usual large crowd will journey thither on the steamer Wilmington to hear the music. Prof. B. F. Lassiter, the director, has an organization of splendid musicians which is always heard with delight. The boat leaves at 2:30 P. M.

Lumina To-Day.

Two concerts to-day at Lumina—4:00 and 8:30 P. M. **

MR. WILLIAMSON RETIRES

Popular Agent of Seaboard Air Line Here Leaves the Service on August 1st—His Successor.

The public generally and the business community especially will hear with regret that on August 1st, Mr. E. B. Williamson will retire as agent of the Seaboard Air Line in Wilmington. He will be succeeded by Mr. A. A. Avielhe, who now holds a responsible position in the office of the S. A. L., at Savannah, Ga. Mr. Williamson has not yet decided whether he will remain with the Seaboard in another capacity at another point or will engage in other business.

It would be a loss to the Seaboard and to the railroad service generally were Mr. Williamson to decide to engage in something else. He is decidedly popular in Wilmington, having made a host of friends here, and there are many who hope that circumstances may so shape themselves that he will continue a resident of this city.

Since Mr. Williamson took charge of the agency here a little more than two years ago, the Seaboard's business at this point has gone forward by leaps and bounds. There has been a phenomenal increase in both the freight and passenger traffic, the terminals and equipment of this branch of the Seaboard have been wonderfully improved and there is a better feeling on the part of business men and shippers toward the road than ever before. That Mr. Williamson has been largely instrumental in bringing about these conditions, no one the least acquainted with the facts can doubt for a moment and it is sincerely regretted that he sees it to his interest to leave. He has been a hard worker, in and out of season, and every patron of the road here will experience a personal loss in his departure.

His successor, however, is a man of experience and it is to be hoped that he will continue the Seaboard service along the progressive lines laid out by Mr. Williamson.

As an evidence of the wonderful growth of the Seaboard's business here it has just been announced from headquarters that the company will in the next ten days or two weeks begin the erection of another large storage warehouse, to cost in the neighborhood of $10,000, at its terminals here. It will be the largest of all the warehouses of the Seaboard here and is absolutely necessary to take care of the large amount of heavy material brought here by vessel for shipment by the company to the interior. There has been an increase of over 100 per cent. in this traffic of the Seaboard here within the past eighteen months and the new warehouse will enable the company to handle expeditiously the greater increase expected still.

Mr. Williamson's successor was here a few days ago and looked over the field, expressing pleasure and enthusiasm at the outlook. He is a single man, courteous, obliging and with progressive ideas of railroad work.

COTTON MANUFACTURERS CONCERNED.

To-morrow at Washington the American Cotton Manufacturers' Association will be given a hearing by Secretary Wilson of the Agricultural Department, in accordance with a request of President R. M. Miller, Jr., of Charlotte, representing the cotton manufacturers. We have already stated that the inference from President Miller's request is that the manufacturers are opposed to going into a revision of the cotton acreage statistics. It is believed that the Hyde statistics report the acreage as much larger than they really are, but it is certain that any going into the acreage matter again will keep the cotton market in a state of uncertainty and perhaps result in wide fluctuations in prices. That is what the manufacturers do not like to see for they don't know how to fix a basis of prices or make contracts for the delivery of manufactured cottons. Our esteemed contemporary the Savannah News says:

"The action of the American Cotton Manufacturers' Association asking that the Department of Agriculture take no steps towards publishing a revised June cotton crop report before the association is given a hearing in regard to the matter causes no surprise. A committee of the association is to have a conference with the Secretary of Agriculture at an early day.

"The manufacturers of cotton goods are almost as deeply interested in the cotton crop reports as the cotton planters are. They want the truth respecting the cotton crop made public. Juggling with the figures sent to the Department of Agriculture by its agents is extremely injurious to their business. They cannot do a profitable business when there are wide fluctuations in the price of cotton, and when such fluctuations are frequent the disturbances in their business are so great that they are apt to suffer heavy losses.

"They want stable prices, because such prices enable them to make and maintain prices for their products which yield a profit. They are entirely willing that the cotton growers shall have a fair profit on their crops, and they are willing to aid them in any way they can to obtain such a profit, but they are against a condition of affairs which enables the cotton speculators to make the price of cotton to suit their own interests.

"The manufacturers of cotton goods have not been active in the cotton crop scandal. Indeed, if newspaper accounts are to be relied upon, they have had nothing whatever to say about it. Now, however, they are beginning to awaken to the fact that if the work of collecting cotton crop statistics isn't done honestly they are going to have a hard time to keep their mills running.

"The inference to be drawn from the letter which the association has written to the Secretary of Agriculture is that the association is satisfied that the government can come nearer giving the public reliable information about the cotton crop than any other agency. The association evidently looks upon the cotton crop reports of the Southern Cotton Association with some degree of suspicion. The cotton planters want to get as much as they can for their cotton and it is not to the advantage of cotton manufacturers that the price of cotton shall fluctuate greatly or that it shall be so high as to limit the market for cotton goods. There is, therefore, some antagonism between the planter and the manufacturer."

The Southern manufacturers readily joined in the Southern Cotton Association movement, and at the time we thought the interests of the planter and their cotton mill customers were too divergent for them to co-operate harmousiously. The manufacturers don't want prices for cotton too low, as they would like to see the farmers prosperous. They neither want the price of raw cotton too high for the mills to make a profit and most of all they do not want to see widely fluctuating prices.

It would seem that at present the ginners have things their own way as to prices and it might not be a bad idea to let well enough alone.

LETTER FIGURES IN COTTON LEAK SCANDAL.

Monday's Associated Press dispatches from Washington announced that Morgan H. Beach, United States Attorney for the District of Columbia and who is in charge of the investigation into the cotton leak scandal, had gone to New York in search of evidence. He declined to make any statement before leaving Washington, but the dispatch stated that it was his intention to interview L. C. Van Ripe rand other New York brokers who made disclosure of the methods employed by former Associate Statistician Edwin S. Holmes who was dismissed from the Statistical Bureau for giving out advance information for the benefit of himself and certain brokers. Mr. Beach arrived in New York Monday and still refused to talk.

The visit of Mr. Beach to New York, however, will probably develope a sensation. Our valuable contemporary, the New York Journal of Commerce, on Thursday says:

"The investigation of the cotton report leak is taking more serious shape. Not only has District Attorney Morgan H. Beach come here to conduct an inquiry into the matter, but Secretary Wilson, it is said, has been forwarded a letter, the contents of which are sworn to, that exposes the entire work of the system employed in the alleged falsifying of the reports and names all those implicated in the transactions. That action, and vigorous action, must follow seems a foregone conclusion."

The letter referred to by our New York contemporary, written under pressure brought by those who have been constituted an investigating committee upon one of the men whose connection with the affair is a matter of public knowledge, but whose identity is withheld for the present, is in the nature of a refutation of the assertion of Secretary Wilson that the incident was practically ended. Mr. Roosevelt has been advised of the nature of this communication, which is regarded in the light of a confession.

It is stated in no uncertain terms that the assertions contained in the letter are of the sort that admit of no delay in confirming or disproving them. They relate in minute detail the precise manner in which the official report was tampered with; who took part in the operation; to what extent the fraud was perpetrated, and where and how the proofs of the charges in the letter may be found.

This letter was forwarded to Secretary Wilson last Friday, reaching him, it is thought, on Saturday morning. On Monday, Harvie Jordan and Richard Cheatham, respectively president and secretary and treasurer of the Southern Cotton Growers' Association, who, with the active co-operation of several New York factors, are in charge of the investigation, went to Washington to be on the ground in the event that Secretary Wilson gave the matter immediate attention.

The investigation is getting to be quite interesting, but we presume that the letter referred to is no secret to Messrs. Jordan and Cheatham. We rather infer that these gentlemen of the Southern Cotton Association put Secretary Wilson onto the letter, and there is no telling how many other disclosures they may have up their selves.

Big Excursion to Columbia.

Thomas H. Knight's excursion to Columbia on Monday, July 31st, promises to be the biggest and best event of the Excursion Season. The population of Columbia has increased nearly nine thousand in one year, while its increase in property valuation has been nearly one half million dollars in the same time. Three hundred new buildings being erected in 1902 valued at $1,536,225.00 Electric Lights decorate the intersection of very street in the city, providing throughout the city a most thorough illumination. Go to Columbia, see the twelve story skyscraper, the largest cotton mill in the World, and the most beautiful capitol building in the South. There is something to interest you on every block. Train leaves Atlantic Coast Line depot at 7:00 A. M., and will leave Columbia on the return the next night, Tuesday, August 1st at 9:00 o'clock. The round trip from this point will be only $2.00. There will be separate cars for white and colored people.

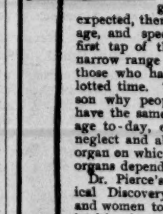
In the good old days the sexton announced a death in the community by a stroke on the church bell for every year of the life that was gone. People expected, then, to live to old age, and speculation at the first tap of the bell took a narrow range including only those who had lived the allotted time. There is no reason why people should not have the same expectancy of age to-day, except for the neglect and abuse of the one organ on which all the other organs depend—the stomach.

Dr. Pierce's Golden Medical Discovery enables men and women to be strong and healthy, by curing diseases of the stomach (and other organs of digestion and nutrition), which prevent the proper nourishment of the body.



"I had been sick for two years with indigestion and nervous debility, and had taken medicine from my family doctor for a long time without much benefit," writes Mrs. W. H. Peebles, of Lucknow, S. C. "Was induced by my husband to consult Dr. Pierce by letter. You advised me to take 'Golden Medical Discovery' and 'Favorite Prescription,' which I did, and, to my great surprise, after taking six bottles I was cured."

The Medical Adviser, in paper covers, is sent *free* for 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

SPIRITS TURPENTINE.

—Hon. Dan Hugh McLean, who has resided at Burlington during his term of treasurer of the North Carolina Railroad, will settle at Lillington to practice law.

—Ernest Edwards, five years old, was drowned in a mill pond at Mt. Holly, Gaston county, Friday afternoon. The lad was alone. He was a son of Mon. Edwards.

—Troy Mountgomerian: From recent reports from the Elisha Moore gold mine we learn that the prospects are fine. A depth of over sixty feet has been reached and the vein is showing up well.

—Drs. C. B. Hall, of Orange county, and S. E. Mahone, of Person county, graduate dentists, have purchased the dental business, good will, etc., of Dr. J. R. Stockard, of Goldsboro, who is suing for $10,000 for alienation of his wife's affections.

—Raleigh News and Observer: It is said that Moore county farmers who rightly manage are making from $150 to $200 per acre on the Delaware grapes they are shipping to market. No grape is so good except the scuppernong, and it cannot be profitably shipped.

—Moore County News: Prof. T. M. Seawell taught school last spring in Pamlico county and one day while out driving in April he lost his watch on a public road and was unable to find it. Last week while on a visit down there he took a drive over the same road and found his watch in the sand in the public road where it had lain for three months uninjured and went to running when he would it up.

—Dr. Anderson R. Miller, of Kinston, in the 76th year of his age, died in Kinston on Friday after an illness of six months. He was a prominent citizen and a Confederate veteran. Dr. Miller served in the war as a commissary sergeant on duty in Kinston, joined the 66th regiment and was sent to Virginia, but was soon detailed in the hospitals as steward in Starr's battery stationed at Kinston.

—Raleigh News and Observer: Mr. John Dockery, who has been at Rex Hospital since being shot by Policeman I. W. Rogers, is now able to sit up and has been out of bed in a chair. There may be a search for the bullets with the X-ray apparatus, but this is not determined. Though Mr. Dockery is steadily improving his physicians as yet decline to say he is out of danger and the hearing of Mr. Rogers may be postponed again next Monday.

—There are no cases of smallpox right around Goldsboro, but the county physician says there are about one hundred and fifty cases in Indian Springs township and that he has ordered a general vaccination in that section. The disease has shown itself in Fort township also, and vaccination has been ordered in that section. The pest house on the banks of Neuse river has been full for some time, so the county will have to make arrangements to accommodate the new cases.

—Mr. Lewis Grady, Sr., died Thursday morning at Kinston of dropsy, after an illness of nearly three months. He was born in Lenoir county, April 3d, 1840. He volunteered at the beginning of the Civil War as a private in Captain Wooten's company of infantry, and later joined Company K, First North Carolina Cavalry, Captain Houston, commanding. He was wounded at Upperville, Va., June 22, 1863, and while at home on furlough due to the wounds, he met and married Miss Sophronia Outlaw, daughter of Grady Outlaw, on January 5, 1864.

—Gastonia Gazette: Mr. Thos. L. Rhyne and his little son Earl were welcome visitors at The Gazette office Wednesday. Mr. Rhyne came over to dispose of the remnant of his cotton crop, and received 10 1-4 cents for it. Last Spring Mr. Rhyne decided to raise more sweet potatoes and less cotton. His potato patch this year contains about 4 1-2 acres and is heavily fertilized with home made compost. Mr. Rhyne says he now has potatoes as large as a chair-post—though not as long—and that he feels confident of getting 800 bushels from his four acres.

PERSONALLY CONDUCTED TOUR TO THE PACIFIC COAST.

VIA

Seaboard Air Line Railway.

The SEABOARD announces a personally conducted tour from North Carolina to points in Colorado and Yellowstone National Park, Los Angeles, San Francisco, the Lewis and Clark Exposition at Portland, Ore., and other points of interest on the Pacific Coast, to leave about August 1st to 8th, exact date being decided later. The round trip is only $82.50 and the route will be via Atlanta, Birmingham, Memphis, St. Louis, Kansas City, Denver, Colorado Springs, Salt Lake City, Los Angeles, San Francisco, The Shasta Route to Portland, Northern Pacific to St. Paul thence to Chicago and return via St. Louis.

Through Pullman cars will be arranged for the exclusive use of the party, which will be personally conducted by Rev. Wm. Black and wife, of Davidson, N. C., who successfully handled the large party from North Carolina last August.

Itinerary of the trip is now being prepared which will give full details as to the rates, stop-overs, hotel rates and points of interest. It will be one of the most complete trips of its kind ever arranged from this State and at very small cost. Those who join the party will be shown every attention over the entire trip which will consume between four and five weeks.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

Have the Home Beer Pure

Whatever you drink outside, let your home beer be Schlitz. That is pure beer. No bacilli in it --- nothing to make you bilious.

Beer is a saccharine product, and germs multiply rapidly in it. The slightest taint of impurity quickly ruins its healthfulness.

We go to the utmost extremes to prevent that. Cleanliness is a science where Schlitz beer is brewed.

We even cool the beer in plate glass rooms, in nothing but filtered air.

Then we filter the beer. Then we sterilize every bottle.

And Schlitz beer is aged. The beer that makes you bilious is green beer.

When you order beer for your home, get the healthfulness without the harm. Get a pure beer - get an old beer - get Schlitz.

ACT QUICKLY

DELAY HAS BEEN DANGEROUS IN WILMINGTON.

Do the right thing at the right time.
Act quickly in times of danger.
Backache is kidney danger.
Doan's Kidney Pills act quickly.
Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this.

R. A. Biddle, clerk at 19 Market street, residing at 606 Castle street, says: "I used Doan's Kidney Pills myself for kidney trouble and my wife who also suffered from backache also used them. I never knew anything to act so quickly. I have suffered quite a long time with my back and kidneys. The kidney secretions were very dark and full of sediment. My wife also complained of her back, and when we read of Doan's Kidney Pills in our newspapers I went to R. R. Bellamy's drug store and got a box. We used them with the best results. In my case the kidney secretions cleared up and the pains left my back. We have neither of us complained since taking Doan's Kidney Pills, and it is with pleasure that I recommend them at every opportunity."

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Forced to Starve.

B. F. Leek, of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my upper lip, so painful sometimes, that I could not eat. After vainly trying everything else I cured it, with Bucklen's Arnica Salve." It's great for burns, cuts and wounds. At R. R. Bellamy's drug store; Only 25c. **

TREMENDOUS BLAST AT PORTSMOUTH, N. H.

Three Acres of Obstruction to Harbor Blown Up With Enormous Charge of Dynamite.

Portsmouth, N. H., July 22.—An electric spark today discharged forty-five tons of dynamite and a three-acre ledge that had menaced navigation in the Piscataqua river was destroyed.

The setting off of this enormous amount of explosive, said to have been the greatest ever handled at one time in this country, if not in the world, was attended by little danger and by no accident. It was declared a "complete success" both by the contractors who had carried out the undertaking and by the United States government officials who have supervised the work.

The switch by which the immense blast was discharge was operated by Miss Ethel Foster, the young daughter of the superintendent of the contracting firm, at a signal given by Rear Admiral W. W. Mead, commandant of the Portsmouth navy yard. The event was the climax of three years' work which involved the expenditure of nearly three-quarters of a million dollars and as a result of it the new government drydock at the navy yard here, is given an approach of sufficient width and depth to permit the safe passage of the largest vessel afloat.

At 4:10 Rear Admiral Mead gave the signal for which Miss Foster was waiting. She moved the switch. There was a fraction of a second interval. Then came a tremendous upheaval of water, rocks, clay and lumber, accompanied by a sound like the boom of a distant cannon. From the center of the commotion a great mass of water was thrown up to a great height and a huge wave rolled ever towards the New Castle shore.

The only element of danger was the great rush of water toward the New Castle shore, which was some 1,500 or 2,000 feet away. One great wave swept across with tremendous force, and others resembling the surf in a storm followed.

It caused no damage, however. Some of the pieces of timber also fell on Pierce's Island where there was a throng of spectators but these were easily avoided.

Sight-Seers In Collision.

Portsmouth, N. H., July 22.—Fifteen persons were injured, eleven of them seriously and three of them probably fatally, in a collision between two electric cars on the line of the Portsmouth Electric Railway, near this city, early this evening. The cars crashed together on a steep grade and while rounding a curve, neither motormen seeing the other car in time to prevent a collision. One of the cars was well filled, carrying about forty passengers while the other was crowded with passengers, most of them residents of Havre Hill who had journeyed to this city to witness the destruction by dynamite of Henderson Point.

PRETTY DOUBLE WEDDING.

Misses Croom the Brides of Popular Young Business Men.

(Special Star Correspondence.)

Magnolia, N. C., July 22.—On Wednesday evening, July the nineteenth, nineteen hundred and five, at half past seven o'clock, a beautiful marriage was solemnized in the Baptist church. The contracting parties were Miss Alice Bradley Croom to Mr. Shelton Brinson Hunter and Miss Eva Beecher Croom to Mr. John Knapp Hamblin. The attendants were Mr. Forrest Croom, brother of the brides and Mr. George W. Robinson, ushers. Miss Exie Croom, of Burgaw, and Miss Macy Cox, bridesmaids. Miss Mary Croom, sister of the brides, maid of honor. To the sweet strains of Mendelsohn's wedding march, skillfully played by Miss Allie Swinson, the party entered the church in the following manner: The two grooms entered the right aisle and the ushers at the left. Then came the two bridesmaids together, next the maid of honor, followed by the brides. The beautiful and impressive ceremony was performed by Rev. J. W. Martin.

The brides were beautifully gowned in white crepe de chine and wore the bridal veils. The maid of honor wore a charming pink gown and the bridesmaids were tastily attired in white.

The church was beautifully decorated in red, white and green.

The brides are popular daughters of the well-known Mr. and Mrs. John Franklin Croom.

Mr. Hamblin is one of Magnolia's popular young men and is now a successful lawyer in Union, South Carolina. Mr. Hunter is a popular young man of Egypt, Ga., and is superintendent of the E. C. Foy Manufacturing Co.

A very enjoyable reception was given by the hospitable parents of the brides on Tuesday evening at 8:30 o'clock.

Mr. and Mrs. Hunter left on the 8:30 train Wednesday evening for Tybee Beach, Ga., where they will spend a few days and then go to their future home in Egypt.

Mr. and Mrs. Hamblin will remain in Magnolia a few days and say farewell to their many friends. Then they will go to their home in Union.

Both couples have many friends who wish for them long and happy lives with the added blessings of brightest sunshine in their pathway.

DEATH RECORD IS NOW SIXTY

Further Particulars of Awful Explosion on Gunboat Bennington On Friday

LIST OF CASUALTIES IS 110

Seventy-three at Hospitals—More Will Die and 17 Missing—Escape of Negro Who Was In Maine Disaster.

By Wire to The Morning Star.

San Diego, Cal., July 22.—To-night's summary of casualties due to a boiler explosion yesterday aboard the gunboat Bennington in San Diego bay gives a total of sixty dead and fifty severely injured. Total 110.

A number of men are still missing, some of these may be dead and probably a dozen of the injured will die of their wounds.

Folowing is an official list of known dead from the South with ages, occupation and place of birth or enlistment:

Ensign Newman K. Perry, 26, Columbia, S. C.; Wesley M. Taylor, 28, seaman, Atlanta, Ga.; Bert A. Hughes, 19, seaman, Clarksville Ark.; Kirkley F. Morris, 24, fireman, Owensboro, Ky.; Glen Brownlee, 24, seaman Galveston, Texas; Harry F. Smith, 23, seaman, Harrisonville, Mo.; Robert L. Savage, 23, seaman, Waco, Texas; Josiah Zell, 27, seaman, Waco, Texas; Emile C. Hoffman 25, blacksmith, San Antonio, Texas.

Four unidentified men of the new draft who joined the Bennington at San Diego, are among the dead. Seven men names uncertain, known to be in the flooded compartments of the vessel. Undetermined number of men still missing.

Little or no progress in the work of rescue was made aboard the Bennington today. The water had risen still higher in the holds, and it was impossible to reach the bodies known to be hidden beneath in the vessel. A fire tug with a powerful pump will be used to empty the hold of water and give the workers an opportunity to reach the dead. Commander Young, today requested Chief of Police Thomas to arrest all members of the Bennington's crew who may be ashore without a pass. In this way Commander Young hopes to arrive at a correct estimate of the missing as well as to prevent desertions.

Commander Young expressed the opinion that there was a weak spot in one of the boilers, but said there had been no visible defects so far as he knew. The men who were injured, tell a different story. They say that it has been the talk of the ship for at least six months that the boilers were defective, and many of them had feared for a long time that just such an accident would happen. One of the men said that a year ago, while the ship was at Magdalena bay, the engineer of the cruiser New York was sent for to inspect the boilers, and he reported that they were in good condition. While the vessel was in San Francisco last year the talk of defective boilers again arose, but no steps were taken to remedy them. The upper deck amidship, presents a mass of wreckage. The smoketacks were blown out of place and the superstructure is bent and twisted in all sorts of shapes. The plates on the side are bulging out and leaks in a number of places are letting in the water.

John Turpin, a colored man, of the crew, who was on board the Maine when she was blown up in Havana, was on board the Bennington and again escaped injury. He rendered valuable aid rescuing the dead and wounded.

Out of the confusion that followed the disaster and the work of rescue come thrilling stories of heroism and self-sacrifice. The bravery of the crew was commented on by all who had opportunities to witness the scenes. Men who were badly injured and scalded worked to rescue those who were worse off than themselves, and all the special instances of heroism of the disaster probably will never be fully written. The self-sacrificing efforts on the part of the physicians and scores of nurses were also commented on with praise for all. Every one who could be made useful at the hospitals was put to work, and those who could not were asked to return and relieve those who were accepted. Fireman E. G. Hopp makes the first statement as to the cause of the accident. He says that shortly before the explosion one of the boilers was found to be leaking badly, and the boiler maker was sent for to repair the damage. Before the latter came the explosion occurred. Hopp saw men all about him killed outright and he himself was stunned for a moment.

The dead will be given a military burial Sunday afternoon at the military reservation at Point Loma. Services will be held at 2 o'clock on the Point, and launches will convey across the bay the living officers and men able to attend.

Scenes at the hospitals today were trying to those unused to them. At Agnew Sanitarium 37 men lay swathed in bandages, many of them having their features covered with masks of medicated cotton, with only openings for the mouth and nostrils. Nearly all suffered severely about the hands and neck. Not more than three men were in any one room and the arangements for caring for them was complete in every detail. There were nurses to spare. Every one of the poor fellows had at his bedside a trained nurse who anticipated every movement, and did everything to assuage pain. Many physicians, volunteers from among capable practictioners, were dressing the terrible injuries and in other ways showing their self-sacrificing efforts for the brave boys of the Bennington.

Dr. M. H. Foster, himself almost an invalid, on leave from his post at the marine hospital on Pudget Sound, came bravely to the front yesterday and took entire charge of the injured. When seen today at Agnew Hospital he was lying upon a couch and smilingly confessed that he was "all in."

Although suffering from a long period of nervous prostration Dr. Foster's services in the terrible ordeal that followed yesterday's disaster have been invaluable.

Conspicuous among those at Agnew's today was the venerable Spanish priest, Father Ubach, of St. Joseph's parish, who went from cot to cot, speaking words of comfort and cheer to the suffering sailors.

Dr. Gochnauer, in charge of Agnew Sanitarium, is one of the heroes of the disaster. He it was who looked after every detail of caring for the injured during the hours immediately following the explosion. In twenty minutes after the news of the catastrophe reached the hospital he had arranged for fifty additional beds in the institution, secured quantities of bandages, medicines, etc., and summoned all the nurses to be had. Seventy-three men were taken to Agnew Sanitarium.

Details of Disaster.

Washington, July 22.—The details of the explosion on the United States gunboat Bennington at San Diego, as ascertained by Commander Lucien Young, were received at the Navy Department at 1:15 o'clock to-night, in a long telegram from the commander. It appears from the telegram that a small leak had been discovered in boiler B, and the boiler-maker was on his way to repair it, and was passing through the engine-room when the explosion occurred.

The dispatch follows:

"San Diego, Cal., July 22, 1905.

"Secretary of Navy, Washington, D. D.

"I have employed stevedores and laborers from shore and am making every effort to stop leaks and to recover dead still under wreckage and boilers. I believe principal leak is at bottom below pipe and leak under rudder head. Many seams shaken loose and leaking.

"Ship at high tide is filled with water two feet above main deck on lower side. Fire engine was employed last night to pump out water, but was unsuccessful. I am now rigging big centrifugal pump. Hope will be able to pump out water.

"I am of the opinion that the cause of the accident, as far as I can ascertain, was a small leak in boiler B. Boiler-maker was on his way to repair it, and was passing through engine-room when accident occurred. Boiler B, was forced to stern through its bulkhead and came in contract with boiler D, which was also forced through its bulkhead, and both boilers exploded with two close explosions.

"There was no noise, only a thick thud which filled the ship from stem to stern full of scalding steam, soot and ashes, even so much so that main deck was uninhabitable and those that were not blown over board jumped overboard for air, and in my opinion many of these were drowned, for I still have seventeen missing that can't be accounted for.

"Men quartered at San Diego barracks where they are very comfortable, retaining a guard and relief guard on board.

"The wounded are scattered around in the three hospitals, and those but slightly wounded in private residences. Doctor Foster, marine hospital service, has charge of a force of efficient doctors who are doing all in their power for wounded. Doctor Kneedler, army resident physician, has a few at San Diego barracks, and is doing all in his power for them.

"I have made arrangements for burial of dead with military honors in military cemetery at Fort Rosecrans to-morrow afternoon. Captain Scott and officers of the fort are doing everything possible, and he will furnish firing squad to-morrow. I have engaged an Episcopal minister and Catholic priest to read service over dead."

Following the above, as far as can be ascertained, is the total number of deaths up to Saturday morning with a prospect of more dying in a day or two.

To Be Investigated.

Washington, July 22.—The Navy Department has been advised of the arrival today at Bellingham Bay of Rear Admiral Goodrich, commander-in-chief of the Pacific station, with his squadron from Alaskan waters. Acting Secretary Darling at once advised him of the disaster to the Bennington and directed him to proceed forwith to San Diego. It was not necessary for the Department to instruct him to conduct an investigation of the disaster as the regulations provide that the commanding officer of a station must order such investigation. Commander Young, captain of the Bennington, has been advised of the orders to Admiral Goodrich. It will take the latter about four days to reach San iDego.

Repairs at Honolulu.

Honolulu, July 22.—Repairs on the Bennington, occupying three weeks time, were made at Honolulu by the Catton Neill Company but no work was done on the boilers. The main shaft of the port engine was lifted out and the thrust collars were rebabbitted. The piston rod of the port engine which was bent half an inch on the way here, was straightened and a crew under Chief Machinist Bert Wheeler repaired the steam piping. There is a rumor that the Bennington's boilers were leaking before she left Honolulu. The machinists employed on the vessel say they did not hear of any trouble with the boilers.

On her recent departure from this port, the Bennington was delayed two hours because one of her boilers was rendered usless by a leaking plug.

One boiler was said to be leaking when the vessel went to sea. An hour later a report was made to the captain that the boiler was working all right.

ENORMOUS JAPANESE ARMY.

Over Half Million Men Closing on Russians.

By Cable to The Morning Star.

Uuridiapupdze, Manchuria, July 22.—The Japanese armies at present occupy the position of an immense sickle with the handle reaching from a few miles south of Liao Yang and passing through Chantafu, the blade circling northward toward Kirin with the tip on the Korean coast south of Possiet Bay. It is estimated that General Nogi has eighty battalions, General Oku, 60; General Nodzu, 36; General Kuroki, 160; General Kawamura, 90, and General Hasegawa, 120, the battalions averaging a thousand men, which makes the numerical strength of the Japanese 550,000 bayonets with 2,000 field and mountain guns and about 100 seige guns. The Japanese extreme left is guarded by General Tamura's Cavalry division. The Chinese in the Japanese service are in the centre screened by cavalry under the command of General Okihara. The rains this year have been less heavy than usual, and it will be possible to begin operations sooner than expected.

Japanese cruisers are making demonstrations along the coast in the rear of the Russian forces in Korea evidently intent on facilitating the advance of General Hazegawa's force by menacing the Russian line of communications.

NAVAL HERO'S REMAINS HOME

Admiral Sigsbee's Fleet Arrived From France With John Paul Jones

CANNON BOOMED FROM SHIPS

Two Great Naval Squadrons Presented Scene of Stately Grandeur—Ashes of Hero En Route to Annapolis.

By Wire to The Morning Star.

Norfolk, Va., July 22.—In the early light of a mid-summer morning the body of John Paul Jones was brought back to-day through the Virginia Capes to the land of his adoption. Cottagers at Cape Henry, OceanView and Willoughby Spit lined the shores to admire the pomp of the first American admiral's return to his own. The sight, as the ships passed in line, was one of stately grandeur and beauty.

Across the bow of the great cruiser Brooklyn, as she passed Ocean View sailed a little schooner. To those who looked this appeared pathetically puny and small in contrast to the magnificent flagship. And yet, this stray schooner was almost as large as the Bon Homme Richard, aboard which John Paul Jones stood as she sunk with the broadsides of the Serapis pouring in upon her, many of his men wounded and dying, until the captain of the Serapis stopped the fighting for a moment to ask him if he was ready to surrender. "We have not begun to fight yet," was the answer.

Under a threatening sky the three divisions of the North Atlantic fleet, headed by the big battleship Maine, flagship of the commander in chief, Read Admiral Evans, bore majestically down the capes, and at 7:20 the long line of battleships, forming the escort to the ashes of John Paul Jones, stowed in the hold of the cruiser Brooklyn, passed the capes.

The first division of the battleship squadron, separated from the second division of the squadron and the third squadron, under Rear Admiral Chas. D. Sigsbee's command, after the entrance to the capes was reached.

The big battleship Maine did not lead the long line of battleships and cruisers up the bay, but instead Capt. N. E. Niles, U. S. N., commanding Read Admiral Evans' flagship, headed the big vessel for Hampton Roads.

The battleships Kearsarge, Kentucky and Missouri followed the Maine into the roads.

The second division of the battleship squadron, commanded by Rear Admiral Chas. H. Davis, U. S. N., continued in a northward course up the bay, headed by the flagship Alabama of the second division.

The battleships, Illinois, Iowa and Massachusetts following the flagship in regular formation and the Brooklyn flying the flag of Rear Admiral Chas. D. Sigsbee, U. S. N., followed the second division of the battleship squadron in the capes and up the bay, the protected cruisers Chattanooga, Commander A. Sharp; the Galveston, Commander William G. Cutler, and the Tacoma with Commander Reginald F. Nicholson, coming after.

When the flagship Brooklyn came off the capes, orders from the Navy Department, instructing the commanding officer, Captain John M. Hawley, U. S. N., not to try to enter the Severn river were transmitted to the ship by wireless telegraph. The Brooklyn, will, accordingly, not venture closer to Annapolis than the mouth of the Severn. The orders were issued as a precautionary measure to prevent the grounding of the cruiser. The Brooklyn is a vessel of 9,125 tons displacement.

In accordance with these orders the remains of the American hero, now nearing the last resting place, in the soil of his adoption, will have to be transferred to Annapolis on a launch, from the Brooklyn, which will anchor about two miles from the naval academy reservation. The battleships accompanying the funeral cruiser also remain below, with the Brooklyn.

The two fleets met yesterday morning at 9 o'clock 250 miles from the capes. During the journey down the coast Admiral Sigsbee and Admiral Evans held constant conversation by wireless telegraphy. When Admiral Evans' battleship left Admiral Sigsbee's fleet to-day the Kearsarge, Maine, Kentucky and Missouri each fired a salute of fifteen guns. The Brooklyn responded.

Admiral Davis, in charge of the cruiser division, will accompany Admiral Sigsbee to Annapolis. Admiral Evans will remain with his fleet in Hampton Roads till Tuesday, when his ships will go to New York.

THE DOCKERY SHOOTING.

One Bullet Extracted from Patient—Rogers' Preliminary Trial.

(Special Star Telegram.)

Raleigh, N. C., July 22.—Physicians to-day extracted one bullet from Jno. Dockery, who was shot more than a month ago by Policeman Isaac Rogers because he believed Dockery caused the ruin of his daughter. The bullet was from the wound in the shoulder, and was found just under the skin in front where it had lodged after crashing through the shoulder from the rear shattering the shoulder bones.

It is thought probable that if Dockery recovers he will to a considerable extent lose the use of his arm. The bullet in the most serious wound, that in the back which passed dangerously near the spine and penetrated the lungs, has not been located. He is too weak to stand the operation necessary for its removal. The patient is doing very well, but is not yet considered out of danger.

The question of the preliminary hearing of Rogers, who has been in jail since the shooting, will come up again Monday, and his counsel announce their purpose to insist on bail. Until now, Dockery's condition has been so precarious that the question of bail could not be pressed. In the event bail is allowed, there will be no extensive preliminary hearing, the examination being waived for the higher court.

We earnestly advise you to get your Straw Grip this week at Rehder's. 1,500 to be sold for less than they can be bought anywhere else in the city. **

YELLOW FEVER CASES AT NEW ORLEANS

Contagion Came from Belize on Fruit Vessels—Broke Out Among Italian Laborers.

By Wire to the Morning Star.

New Orleans, July 22.—The State Board of Health with representatives from the boards of other Southern States, have been in conference here over the health situation, but there has yet been no official announcement of the existence in New Orleans of yellow-fever cases. It is expected that the results of the autopsical investigation will be given out to-day. Alabama has quarantined on the basis of opinions expressed by her health officers that two cases shown them there are yellow fever. Mississippi and Texas have quarantined on the basis of information telegraphed them of suspicious cases that are under observation. Both States are sending representatives to satisfy themselves. The quarantine put on affects passengers only.

There will be no interruption to the movement of freight. The health authorities are unable to furnish at this time details of cases and deaths. The cases being observed are in one section of the city. They have been isolated and there has been no report of a spread of the disease. Work of sanitation is being carried on in the section referred to and President Souchon of the State oBard of Health is hopeful that the fever will be stamped out in a few weeks. There is no excitement at present prevailing here.

Diagnosed as Yellow-Fever.

New Orleans, July 22.—The official autopsy on a patient, an Italian, who died to-day, of what has been called suspicious fever, has disclosed that the disease was yellow-rever. President Souchon, of the State Board of Health, has notified Governor Blanchard, and the health officers of Mississippi, Texas and Alabama. Arrangements have been made for a detention hospital to treat the remaining cases.

Application of the same methods which were pursued at Havana is to be made and the authorities are hopeful that the disease can be stamped out. President Soúchon said:

"It is the belief of the Louisian State Board of Health that yellow-fever, existed in Belize and Puerto Cortez for several weeks before it was reported to us on May 24th, and that a case from Belize or Puerto Cortez in the peroid of incubation was introduced here before the United States Marine Hospital authorities advised us on May 24th that yellow-fever existed at Belize and Cortez, that is before we had the quarantine on. The passage from Belize to New Orleans is made in three and one-half days. During the quarantine season of 1903 and 1904, there was no report of any suspicious case from there.

"As soon as the existence of the fever was announced on May 24th no passengers were taken by the fruit ships. Medical inspectors were placed on board of the vessels and all other quarantine restrictions were stringently applied, but a case in the period of incubation may have already passed some time during the time the yellow-fever was unreported.

"The center of infection is on Decatur street, in the vicinity of St. Philip, among a number of Italians, who have been working on the fruit ships."

Norfolk to Be Protected.

Norfolk, Va., July 22.—Yellow fever having been discovered at New Orleans, the United States marine hospital service will keep a very rigid watch on all vessels arriving in Hampton Roads from that port. Craft from New Orleans will be held in quarantine the usual five days. There are many tramp vessels putting in for coal from the infected port each week on their way to Europe.

SUNDAY AT WRIGHTSVILLE.

Thousands Will Go There To-day—Some of the Attractions.

The Consolidated Company is preparing to handle one of the largest crowds of the season to Wrightsville sound and beach to-day. The encampment will attract an immense throng and hundreds will go over to the hotels, club houses and cottages to see the visitors there. All hotels were filled to overflowing at the beach last night and the "oldest inhabitant" does not remember having seen a larger crowd of visitors at Wrightsville.

At Lumina, the "People's Pleasure Palace," many will throng to greet friends, indulge in surf bathing and to hear the two excellent concerts at 4 and 8:30 P. M., by Lumina's five orchestra, conducted by Prof. John F. Kneissel. Two splendid prógrammes have been arranged and the best music of the season is promised. The usual concerts will also be given this afternoon and evening at the hotels.

Superior Court This Week.

New Hanover Superior Court, Judge W. B. Council, of Hickory, presiding, will convene at 10 o'clock to-morrow morning and continue in session one week for the trial of criminal cases. No important matters are set for trial and a rather dull term is expected. There are only 12 prisoners in jail for trial and about 53 cases all told on the docket. Assault with a deadly weapon is about the most serious charge in any of the cases. Judge Council and Solicitor Duffy arrived yesterday and will spend Sunday at the beach.

To Address Royal Arcanum.

Maj. E. H. Brooks, one of the most popular officers of the State Guard in encampment at Wrightsville, is Grand Regent of the Royal Arcanum in North Carolina, and has accepted an invitation to address Cornelius Harnett Council, of this city, at its regular meeting Monday night. The Grand Regent will be heard with much pleasure by members of the order in Wilmington all of whom are invited to attend the meeting.

Robbed a Tailor Shop.

The merchant tailor and repair shop of Mr. G. F. Seitter, No. 113 North Second street, was entered by some unknown person Friday night. Half dozen or more pairs of trousers, several coats and other clothing belonging to various customers of Mr. Seitter were taken. The matter was reported to the police station. Mr. Seitter thinks the place was entered by means of a false key.
